

Hello NWFSC Community:

On Saturday, May 1, the Mattie Kelly Environmental Institute is hosting the 3rd Annual Choctawhatchee Estuary Family Festival at Rocky Bayou State Park. We are looking for volunteers to help with set up, clean up, and kids activities including crab races, fish printing, and crafts. This is a free event that features hands-on displays and activities about the local environment and is a lot of fun. Volunteers will each receive a free Festival t-shirt. To sign up to volunteer, please use our on-line form at: <http://www.mattiekellyinstitute.org/Registration/FestivalVolunteers/>

Thank you for making this event a success!
